WARMER

KNOX JOINS IN ATTACK ON LEAGUE PROPOSALS

Pennsylvania Senator Charges That it Strikes Down American Principles

SEES WORLD ORGANIZATION

Why This Feverish Haste to Adopt Plan is Question Asked

(By Associated Press)

Washington, March 1.—Senator Knox, former secretary of state, speaking today in the Senate, assailed the league of nations as striking down American constitutional principles and proposed a new world organization which would "preserve the Monroe Doctrine and save America from European intrigue and aggression."

Senator Knox, who attended the White House dinner, said the constitution of the league "sanctions, breeds and commands war," and after criticising various clauses he asked:

"Why this feverish anxiety for the adoption of this plan? Why this racing up and down the land by propagandists urging its adoption? What benefit is to come from such a sale of the country as is urged upon us? Who are the beneficiaries of this betrayal of our people?"

The Pennsylvania senator said that if the people of the United States desired what he termed a real league of nations to prevent war and "not merely build a coalition to further trade, or preserve and expand territorial possessions," it might be secured through the formation of an international organization of all nations of the world.

Senator Knox said the constitution of such a coalition should primarily declare war on international crime and stipulate that any nation engaged in it, except in self defense, should be punished as an international criminal.

He also suggested that the constitution provide that international disputes be settled according to an international court; that no nation should summon another before the court unless the subject was of common concern to all nations.

\$20,000 DUE CITY MUST BE PAID SAYS PROSECUTOR

"Before I Quit Office Every Cent in Special Assessments Rightfully Due City Will Be Paid or Suit Brought to Collect It," Says Prosecutor Rankin.

Just Complaints Will Get Hearings, is Promise—Many Suits Being Prepared For Filing.

Prosecuting Attorney H. M. Rankin, Saturday morning announced that beginning without delay legal steps will be taken to collect every cent of the \$20,000 delinquent special assessment in this city that is rightfully due the city, and that before his term of office expires he expects to have the money paid into the city treasury or bring court actions to see that it is paid.

In making the announcement Prosecutor Rankin states that all persons who have failed to pay their assessments because of error, and show reasonable excuse for not paying in such assessments, will be given proper consideration.

Prosecutor Rankin has been at work on the matter for some little time and is preparing to file a large number of court actions within the next few days, and suits will follow, it is announced, until all special assessments not previously paid are collected. It is his intention to bring court action in every case where payments are not made promptly.

"The city needs the money, and where no error has been made and the assessments are rightfully due the city, they should be paid, and will be paid," declared Prosecutor Rankin, who also announced that he contends there is no such thing as an "outlawed" assessment and will bring court actions on assessments due back as far as ten or fifteen years if necessary to collect these claims.

"It is not fair to the citizens who do pay their assessments for some not to pay, and where the assessments are not paid without compulsion, then the courts will be appealed to to force payment," is the way the Prosecutor regards the matter.

In the meantime data is being collected for the court action necessary for bringing about such collections.

Bush of this city and George Geesling and family had a very narrow escape from death on the B. & O. crossing, South Fayette street, about three o'clock Friday afternoon, when the Geesling automobile was struck by a B. & O. switch engine and badly damaged. Only the prompt stopping of the switch engine probably prevented a tragedy.

Mr. Geesling was driving down the street and did not see the switch engine which suddenly appeared from behind the lumber sheds along the street, and started across the street. A collision could not be avoided and the front part of the machine was caved in before the switch engine was stopped.

All occupants of the car escaped with a severe jolt and a shock to their nerves.

MESSSENGER OF DEATH ONCE AGAIN SADDENS MCDONALD FAMILY

The messenger of death has brought great sorrow to the McDonald family within the past six months and in the last visit, Saturday morning at half past seven o'clock, bore from the homestead near Cunningham Station to the eternal realm the mother and grandmother, who had been so warmly cherished through her advancing years by her family. While for two years Mrs. McDonald, widow of the late John McDonald, has been in feeble health, yet there had been no warning to prepare for the sudden fainting spell quite early Saturday morning from which she regained consciousness but for a brief farewell.

She was a devoted wife and mother and brought to her home life the deepest interests of her heart and her memory and many kindly deeds, both in and outside of the home circle, will long be revered in the home and among those friends and neighbors of her large acquaintance.

Two Bird Friends

The cardinal, the most numerous of our "red bird" residents, and the song sparrow have been very much in evidence during the past few weeks, the former almost a daily visitor in our dooryards during the entire winter.

The laws of the state protecting song-birds has made the cardinal much more at ease about our premises than formerly. Almost every bright day during the winter his cheery "chirp" has been heard as he gathers the seeds from the shrubbery in the yards and occasional crumbs of meat and bread.

The cardinals, contrary to the understanding of a great many people, remain with us all winter, but when the snow covers the ground they gather together by scores and hundreds in the dense underbrush of the woods. Man's laws protecting them from harm have not been in force long enough to overcome the feeling which nature has given to the cardinals that with his brilliant scarlet plumage he must not fly about against the white background of snow—he is too conspicuous—so when snow covers the ground the cardinals remain hidden in the underbrush of the woods.

This winter there has been little need to observe nature's caution and the saucy cardinal has been much in evidence, of late weeks indulging in his amazing bursts of song.

The song sparrow too, that modest-garbed and modest-living, timid little silver-tongued concert singer among the bird family, has trilled forth his morning and evening song of spring for many weeks past.

While a winter resident in this section the song sparrow with his coat of somber brown lives among the leaves in the fence corners very quietly until the warm sun encourages him to sing his cheering song.

It is amazing that such small and modest appearing little brown birds can roll out such a volume of song as the song sparrow pours forth at morning and evening when he sings to the world his acclaim of joy, the lowly fence row home is left and on top of the highest stake in the old rail fence or the tallest telephone or telegraph pole the concert is given.

While through all the glorious song the modesty of the little song sparrow is in evidence and while there is a pathetic note discernible yet the entrancing song is not second even to the grand opera of the saucy cardinal.

This has been a wonderful winter for the birds and they are not backward in expressing their appreciation of the blessings they have enjoyed and with their songs of encouragement leading the world of feathered folks and humanity too in the welcome to the coming spring.

The Big Problem

There is no mistaking the tendency to break down the barriers which have heretofore separated the nations of the earth and to establish a more intimate acquaintance and closer relationship among the peoples of the earth.

Just how far we can go along that line at the present time, in the way of binding agreements, is the big problem which faces us. Whether the time has come to form a world family of peoples, whether we are yet too far apart in our governmental ideas, or commercial activities and in the ideals we hold, to make anything now save a turmoil of the undertaking are questions which many people, who hope for the best, are seriously asking themselves and each other.

It's a mighty task to form larger confederations of the nations and yet the old way of living apart, strangers to our near neighbors, has been productive of bloody conflicts.

If it is possible to bind the nations together in a loose confederation which will get us all better acquainted with each other without losing that which we have gained that would be, undeniably, the best course to pursue. But we must not "jump to conclusions."

It Has Arrived

Notwithstanding his tremendous service, his acknowledged ability and sincerity of purpose many people have been not a little surprised—pleasantly surprised—that General John J. Pershing has so long escaped abuse by some of his rabid fellow-citizens.

An assault on General Pershing's ability and integrity has been so long postponed that many people had been encouraged to hope that America's great general would escape the attacks which have been so liberally made on almost every other public servant.

But those hopes were premature. The attack has come. A little late, but it has arrived.

We hoped that General Pershing might escape but it is not to be—the notoriety-seekers are going after him too with charges intended to be substantial enough to carry the "charger" into the limelight of publicity.

POEM FOR TODAY

YOU AND OTHER PEOPLE
lots of people worryin' just the same
as you,
lots of people troublin' about their
daily dole,
lots of people hungerin' for the gentle
dew
Of the peace and happiness that de-
light the soul,
Lots of others everywhere
With their problems grave—
Just be glad you're livin', and,
Try to live it brave.

lots of people wonderin', just like you
each day,
how they're goin' to get along, what
the end will be;
lots of people wonderin' how to find
the way,
lots of people in the dark tryin' how
to see,
Lots of others on this earth
Burdened and distressed—
Just be glad you're on this earth
To struggle like the rest.

lots of people carryin' more than they
can bear,
lots of people in the dumps—you are
not alone,
lots of people facing things that are
full of care,
Everybody's troubles aren't always
just his own.
Lots of others sad and shorn,
Peeved and cross and glum—
Just be glad that you were born
For all the sweet to come.

FOOD SCARCE IN RUSSIA AND PRICE IS HIGH

Country Stripped of Manufactured Products and Dog Meat Sells at Premium

(By Associated Press)
Washington, March 1.—Additional light on the situation in the portions of Russia under Bolshevik control is given by a summary of reports obtained recently from a number of refugees who passed through Helsingfors on their way from Moscow to Stockholm.

The summary was made public today by the state department because of the various conflicting accounts of conditions which have been received recently.

"The party at Helsingfors," said the summary, "was composed of French, Belgian and Italian citizens most of them Red Cross workers."

The reports all agree as to the excessive cost of all necessities and the scarcity of food. Dog meat is quoted at 4 roubles (\$2) a pound, horse meat at 15 roubles per pound, pork at 60 roubles and bread at 15 roubles. The country is practically stripped of all manufactured articles especially wearing apparel, and all grain and supplies are requisitioned by the soviet government from peasants who received nothing in return.

"Typhus is reported to be spreading, 1000 new cases being reported at Moscow weekly, and the hospitals are unable to take care of them. Lack of milk has resulted in many deaths of children from starvation."

"The food situation in Russia is very bad and the food is distributed in three categories—a full portion to those doing heavy work, a half portion to employees of the soviet government and private houses and general office work, and one-fourth portion to people not engaged in any occupation. The portions depend on the supplies at hand a full portion generally being one pound of bread daily. Soldiers get an army portion of two pounds of bread, half pound of meat daily and an additional monthly allowance of two and one-half pound of sugar and one and one-half pound of fats."

"All clothes and other necessities can only be obtained through permission of the government by cards and at fixed prices."

"The rumor as to the nationalization of women is not true although such a decree has been issued by the commissar of Saratov, but was immediately cancelled by the soviet government and the commissar promptly dismissed."

"It is not known that any serious conflicts exist between Trotsky and Lenin. The Bolshevik power is maintained by force of arms and terror as well as by an elaborate system of spying."

Most of the factories have been obliged to shut down, and these that are still running do not produce one-third of the normal supply.

PROPOSES PEOPLE VOTE ON LEAGUE

(By Associated Press)
Washington, March 1.—Disputing any assumption that President Wilson represents public sentiment in proposing America's participation in the League of Nations, Senator Frelinghuysen of New Jersey, Republican, speaking in the Senate, demanded that the country be fully informed and allowed to express its decision before the Senate is called upon to ratify the peace treaty.

"The President is the chosen leader of the United States," Senator Frelinghuysen said. "Any proposal which he makes will naturally carry with it great weight. If he proposes in behalf of the United States the use of the army and navy to preserve the peace of the world, what position will the Senate be in should such a proposal be adopted? Constitutionally we will be free to reject any treaty which the executive may negotiate. Will we, however, be free from embarrassment should other nations say to us, 'Your chief executive spoke in behalf of the American public and supposedly voiced their views.'"

Senator Frelinghuysen said that notwithstanding the fact that the president gave assurances that the conclusion of peace was of "transcendent" importance, "spring has almost come and the president has returned without any treaty of peace." He added that the president had never communicated, as he had promised, any information to Congress during his 12 weeks in Europe.

News of Interest to Women

Honoring the eleventh birthday of her bright young daughter, Dorothy Mildred, Mrs. George Donohoe delightfully entertained sixteen of her girl friends Thursday afternoon.

A number of clever contests added to a merry affair, the climax of a record breaking good time being the delicious luncheon served and the gay drawing of favors from a big imitation birthday cake, gleaming with eleven pink candles.

The prize winners were Jean Worthington, Louise Fenner and Marjorie Sparks.

Assisting Mrs. Donohoe in the hospitalities were Mrs. Frank Abke, Mrs. P. C. Harlow and Miss Ruth Donohoe.

The guests who flocked around the popular young hostess were Vanita Gerstner, Louise Fenner, Ruth Shepherd, Alice Elizabeth Ellis, Frances Griffith, Helen Rodecker, Marjorie Sparks, Helen Sunkle, Charlotte Hazard, Virginia Evans, Genevieve Price, Jean Worthington, Susie Tracey, Enid McClure, Dorothy Donohoe.

Local women attending the State Suffrage Convention at Columbus have returned, fired with enthusiasm over, as one woman expressed it, "the wonderful gathering of bright women who carried everything through quickly, efficiently and with a humor that made the convention delightful."

The finish and experiences with which fundamentals were reached and in which women showed their training in Federation work, also was the subject of favorable comment.

Mrs. Harriet Taylor Upton, of Warren, President of the association, was congratulated on her leadership by Governor Cox, who expressed the belief that a sure guarantee against Bolshevism in America is concession of the right of women to vote, based on the principle of motherhood.

"I predict men of this country will turn to the women, in the midst of unsettled post-war conditions, as the soldier in France did to his mother," said Governor Cox. "It is on this basis, and not only as her right that woman should be given equal suffrage to help preserve our institutions of democracy and government."

Representative W. E. Wenner, of Ashtabula, endorsing equal suffrage, received considerable applause after a high tribute paid to womanhood accomplishments in every field.

"Democracy doesn't mean only the dethroning of kings," he declared. "It means opportunity for fair play in a world where sex is not a consideration. The big thing is not for women to be merely interesting to man but to make her life interesting."

The women and the Ohio legislators are accused in one of the Columbus papers as having a real love feast up to the point of throwing choice bits of profanity into the funny stories. Republican House Floor

Leader, Beetham capped the stories by suggesting that the suffrage slogan be "Retreat? h—, we've just arrived," as the Marines at Chateau-Thierry had said.

Mrs. Upton told a funny story too, but she said, as a good Episcopalian, she couldn't be profane and the friendly politicians gave up hope of getting the convention women to cuss.

The state enrollment, with all that it was begun too late to be nearly completed, was so satisfactory to the enrollment chairman that she wired the United States Senate that the names of 314,000 women had been sent in requesting the ballot and many more names are on the way.

Ohio women had taken up the work of enrollment with energy and devotion. One woman reported 2,000 names that she had personally secured. Findley reported double her quota, Washington C. H., shows 1,100 women's names enrolled as in favor of the right to vote and work on Ze county list is just begun.

At the annual election of state officers yesterday, all officers were re-elected with the exception of one, Mrs. Harriet Taylor Upton will continue at the head of the association, Mrs. Dora Sondoe Bachman, Columbus, as second vice president, Mrs. J. E. Wallace, Cincinnati, was elected to succeed Miss Anna B. Johnson of Springfield, as third vice president.

Mrs. Earl Johnson hospitably threw open her commodious country home to the G. R. C. Thursday afternoon and the meeting, under the leadership of Mrs. Tasso Post, was full of interest.

The delicious refreshments served by the hostess and Victrola music added to the pleasure of the afternoon.

The dance of the Washington Band and the Pythian Sisters at the K. of P. hall Friday night, passed off as auspiciously as have its predecessors.

A. P. L. MAY ONCE MORE BE ACTIVE

It is understood from apparently reliable sources that the America Protective League, which had branches in every important town and city in the country during the period of the war, and which recently was dissolved may be re-established as an aid to the department of justice in ferreting out and punishing disloyal citizens and instigators of offenses against the government generally.

WIND BLEW WOMAN FROM TOP BUGGY

While G. W. C. Perry, editor of the Scioto Gazette, of Chillicothe, was enroute to Dayton, Friday evening, to attend the convention of the Buckeye Press Association, and while a few miles east of this city his attention was attracted by a top buggy which had been blown over against a telephone pole, and an aged woman who had been in the rig was in a dazed condition at the roadside. Mr. Perry stopped his machine and assisted the woman to her seat in the buggy and after she had rallied, she drove onward, the storm meanwhile having materially abated.

R. C. WORK SHOP IS SOON TO CLOSE

At a meeting of the Executive Board of the Red Cross Tuesday evening it was decided to close the Red Cross work shop temporarily the last of this week. In order to do this, on account of rush orders from Camp Sherman it will be necessary to keep the rooms open next week from 9 a. m. all through the day. The gauge now in the shop must be made up quickly and it is imperative that there be a large turnout of workers to turn out in such a short time the thousands of face masks and sponges asked for at Camp Sherman.

A thousand face masks were sent over to the Camp Friday evening. All women are urged to rally to the support of the work shop next week.

HEAVY STORM HITS CITY AND COUNTY

A very heavy electrical storm, accompanied by a veritable gale and heavy downpour of rain, with some hail, swept the city and part of the county late Friday afternoon, after which the drop in temperature started as a prelude to the cold wave which arrived Friday night and Saturday.

A heavy northern wind swept the county during Friday night, and this, together with the Friday evening wind storm, caused some damage.

METHODISTS!

The presence of every Methodist, from the oldest to the youngest, is especially desired at the 10:30 o'clock service next Sunday morning, March 2, 1919, at Grace Church.

A very important matter is to be considered at that service. Also the new members are to be received. No special offering is to be taken.

B. & O. SCALES ARE TESTED BY EXPERT

For some time there has been more or less protest that the B. & O. scales at the B. & O. stock pens in this city gave the seller the wrong side of the deal instead of being correct.

State Sealer Lindsey and Deputy County Sealer Baughn Friday made an exhaustive test of the scales with the result that it was found that the 1,000 pound weight gave the seller six pounds more than due him and that the 4,000 pound weight also favored the seller.

The scales were adjusted and are now said to be absolutely correct.

NINTH STRAIGHT VICTORY IS WON BY WASHINGTON

Wilmington Overwhelmingly Defeated On Home Floor By Champions From This City.

Girls, Less Fortunate, Get Small Side of Lop-sided Score at Wilmington Last Night.

The Washington Hi Basketball team scored their ninth straight victory Friday evening by defeating Wilmington High School with a one sided score of 49 to 8 on the Wilmington floor. Although the game was won by the Washington boys in the first half, both teams fought hard to the last minute.

Washington led off in the first half with her regular team and ended this session 20 to 6. During the second half the second string men went in and played the game like veterans.

The team work of the Washington boys was spectacular while the Wilmington team was held down by the powerful defense of Washington guards. DeWees of the home team scored twelve baskets with free foul throws.

The local team will next appear in the Delaware State Tournament during the latter part of next week, where they will meet the strongest teams of the state.

The girl team of the High School met the Wilmington girls team, but were defeated 23 to 4. The girls put up stiff resistance, but were not able to solve the combination presented by the Wilmington team.

A goodly number from this city witnessed the games.

LIGHTS OUT IN JEFFERSONVILLE

The storm of Friday night caused a break in the transmission wire furnishing Jeffersonville with electric current and as a result Jeffersonville was in darkness Friday night and no power was available until late Saturday.

INTEREST SHOWN IN CULTURE OF GRAPES

Field horticulturists are finding an increasing interest this winter in the pruning and general care of grapes. Observations made by them on farm grape trellises and arbors in Ohio show that the old system of pruning known as the "spur" system is used. All of the shoots of the previous season's growth are cut back to two or three buds.

Experimentation has shown that a change to the "long cane" system of pruning with just enough spurs for renewal of the fruiting wood each year has resulted in greatly increased yields of fruit, larger cluster, less old wood on the trellises, and ease of training and caring for the vines.

In changing from the spur system to the long cane system it is often advisable to make the change in two years rather than all the first year. To start the system, one begins at the ground and works out on the old wood to the first good canes of the previous season's growth and selecting from two to four of these, then removing all of the old wood beyond these canes. In addition to the canes one good spur near the base of each cane will be left. The spur will then form the wood to be used for bearing wood the succeeding year. After the

change has been made, each season's pruning consists simply in removing the canes which bore the fruit the previous year and the selection of the best canes from the two or three which grew from each spur for bearing canes the next year. The bearing canes should each carry six to eight buds, and an average vine will carry about 300 buds in all.—Agricultural Extension Bulletin.

DEFICIENCY BILL PASSES HOUSE LATE YESTERDAY

**Government Bureau is Accused
of Misusing Certain Funds**

**Issue Between Gompers and
The People, Says Texas Sen-
ator**

Washington, March 1.—(By Associated Press)—The general deficiency bill, appropriating \$27,771,000 and carrying various legislative riders, including one for investigation looking to the establishment of a national budget system, was passed Friday by the house.

Provision is made for the payment to congressmen who served in the army or navy during the war the amount they would have received in Congress as salary and clerk hire allowances.

An amendment proposed by Representative Good of Iowa forbids the use of any money provided by the bill by government agencies in propaganda designed to perpetuate themselves. Mr. Good told the house that the United States employment service had spent thousands of dollars sending telegrams and letters to labor unions and chambers of commerce throughout the country, urging them to appeal to their congressmen to continue the department.

Representative Blanton of Texas, stated labor unions had been willing to accede to the request for aid of the employment service, because it was a part of the American Federation of Labor's program that the service be continued.

"Samuel Gompers has cabled us to support union measures," said Mr. Blanton, "insinuating that failure to do so would cause a revolution of the discontented labor members here. It has reached a point when Congress must decide whether America and its government is to be run by 110,000,000 people or by Samuel Gompers in the selfish interests of 3,000,000 members of labor unions."

Representative Cooper of Ohio, vigorously protested against the attack on Mr. Gompers, saying that no man had done more to enable the country to win the war than he had. The ranks of the unions had been kept solidly united by Mr. Gompers' influence, he stated, and the I. W. W.'s were prevented from disorganizing war activities.

IMPORTANT PORT TO BE RELEASED

Richborough, England, March 1.—(By Associated Press)—This train-ferry port, which has sprung up during the war is about to be released from government control and taken over by the South Eastern Railway. It is from this port, between Deal and Ramsgate, that most of the war material, locomotives and whole trains were transported to the Western front in France.

TERRAZAS MEETS DEATH AT LAST

(By Associated Press)

Mexico City, March 1.—Luis Terrazas, Third, rebel "general" and adventurous grandson of the former multi-millionaire Chihuahua ranchman of the same name, has been killed in the state of Tlaxcala, while serving with the bandits of Marcelo Caraveo, according to reports received here from Puebla.

Terrazas, who was about 25 years old, is credited with being the leader in numerous sanguinary chapters of the history of modern Mexican revolts. Daring to foolhardiness, he had, on numerous occasions been in imminent peril of death and, when his body was recovered, it is said to have borne the scars of 15 wounds.

His fatal escapade was venturing alone into the village of Cholula, where he was set upon by nearly a score of the inhabitants. He killed three before succumbing to a machete blow.

BACK LIKE A BOARD? IT'S YOUR KIDNEYS

There's no use suffering from the awful agony of lame back. Don't wait till it "passes off." It only comes back. Find the cause and stop it. Diseased conditions of kidneys are usually indicated by stiff lame backs and other wrenching pains, which are nature's signals for help!
Here's the remedy. When you feel the first twinges of pain or experience any of these symptoms, get busy at once. Go to your druggist and get a box of the pure, original GOLD MEDAL Haaren Oil Capsules, imported fresh every month from the laboratories in Haarlem, Holland. Pleasant and easy to take, they instantly attack the poisonous germs clogging your system and bring quick relief.
For over two hundred years they have been helping the sick. Why not try them? Sold everywhere by reliable druggists in sealed packages. Three sizes. Money back if they do not help you. Ask for "GOLD MEDAL" and be sure the name "GOLD MEDAL" is on the box.

SAYS BAD WHEAT SENT TO BELGIUM

Washington, March 1.—Investigation of the charge that the Belgian relief commission shipped large quantities of bad wheat into Belgium for food purposes, causing the deaths of more than a thousand war sufferers, was demanded in a resolution introduced by Senator Calder of New York.

The resolution provides for an inquiry by the senate agricultural committee. A preamble set forth that the resolution was introduced as a result of testimony taken before Chief City Magistrate McAdoo in New York on Feb. 13 last. Senator Calder said he did not mean to reflect upon members of the commission.

LEBANON WOMAN IS HORSE TRAINER

(By Associated Press)
Lebanon, O., March 1.—Ohio boasts of a real, honestgoodness woman trotting horse trainer and driver—Miss Vesta Gibbs, of this city, who has been a prominent figure on the Ohio halfmile tracks for several seasons.
Last year she raced The Orphan Boy, 2:20 1/4, starting him nine times and he never was outside the money. Another she raced and had had luck with was the green pacing gelding, Babe K., by Commodore Kittson Jr. At Burgettstown, Pa., after winning two heats in his race he broke down and died almost immediately. He had won two races and got third money in two others previously. To replace Babe K. in her stable, Miss Gibbs has just purchased the pacer Grand Pointer, 2:19 1/4, by Sidney Pointer, dam Edna Baird, and expects to give him a stiff campaign this summer.

WILL SEE PLAY

Quite a few of Washington people will go to Wilmington Monday night to see "Come Out of the Kitchen" at the new Murphy Theatre, the play being one of the best booked at the big theatre this year.

"Come Out of the Kitchen," by A. E. Thomas, is based on the popular novel by Alice Duer Miller, ran for an entire season at the Cohan Theatre in New York. It has been one of the really great successes on tour and Henry Miller, the actor manager, sends the original production. The scenes of the three acts of "Come Out of the Kitchen" are laid in a Virginia household and the young folks of a fine old Southern family temporarily, and for a good reason, pretend to be the servants at their own home. An exceptionally fine cast has been provided by Mr. Miller.
